

October 27, 2017

Subject: Notes form Homeowner Meeting of October 25

The meeting at Fox's had fewer members, about 35, than usual.

The reconstruction on the bridge will take approximately 365 days after commencement. Each side of the bridge will be completed one at a time. Yes, we will be inconvenienced, but the inconvenience will pay off after completion. Presently the process of removing the services is taking place. Services are being relocated under the canal bottom.

The recent levee board meeting revealed that the process of choosing the engineering company to do the feasibility study is taking place. Of special consideration was a request that no firm with parish contracts be involved and no firm that has been used previously be considered for the job. PROGRESS TAKES GREAT PATIENCE. PRAY DAILY !!!

Hwy. 11 is nearing completion. Soon the levee will be in place. MORE PATIENCE!!!

Thank your higher being and a stroke of luck for another hurricane season that did not impact us directly.

The security camera system was voted down last night after a vigorous and quite out- of- hand discussion.

A plea for more participation in the way of membership dues, lending a hand for various committees, and attending meetings was extended. POLITICIANS pay attention to numbers.

SANTA BY FIRE TRUCK IS COMING THE SECOND SATURDAY, DEC.9, 2017. If you can help with that, please let us know.

I will keep you posted on the progress the consortium is making.

Bonnie
