

August 9, 2021

Last Monday we held a meeting with President Cooper and his aides. I listed the topics for the meeting so I wouldn't have to hear that they will search and get back to us. Those topics were:

1. Ownership of the Moonraker Lake bottom, ownership of the sides, and changes made within surveys
2. Moonraker Dr. The street is in really bad shape; imagine my disappointment and anger when I noticed Pebble Beach and the sign that has been erected
3. Additional lights for Moonraker Dr.
4. Restriping the right-hand turn lanes on and off the bridge
5. The poor job the ordinance department does
6. Justice of the Peace, Inspector General
7. Transparency in our government
8. How much money has been collected by taxes and what does Moonraker Island get in return for its money?

President Cooper did not make the meeting unfortunately. He was called away to Baton Rouge for a meeting about Covid.

I was given a recording of an act of sale, but it appears that I need an attorney or someone in real estate to explain what these papers say.

The street is still in the picture but no dates were given.

The additional lights are coming soon.

The restriping on and off the bridge will be done when the painting crew does all street painting.

The head of the ordinance department, Mr. Ross Liner, at 985-898-2529 said if anyone needs him, fill out the form and he will address it.

Questions 7 and 8 drew a combination of blank stares or teenage grins.

I don't know how long it will take to get the answers, but I do intend to persist.

Bonnie
