Bonnie L. Peyroux at 114 Moonraker Dr.

Slidell, La. 70458

To: All residents of Moonraker Dr.

Re: Presented by the new Counsel Chairman of St. Tammany Parish, Jake Airey / the reconstruction of Moonraker Dr. and the St. Tammany Parish Plans for flood protection,

Residents:

Councilman Jake Airey requests your attendance at a meeting held on February 22, '23, at the Yacht Club above Phil's Marina Café, 7:00 P.M. The purpose of the meeting is to gather comments and inform residents of the scheduling of reconstruction of Moonraker Dr. The parish has opened the bidding process on the 8th of this month. The expected cost of this reconstruction is more than one million dollars.

A separate issue is the parish's commitment to flood protection, cost, construction, etc. Councilman Airey has made booklets that will be available to those attending the meeting. The booklets will have pictures of the rock jetties and where they will be placed. It will contain the methods of construction as prepared for our community.

If you desire the information that will be available to you, ATTEND the meeting.

These are just two key issues our residents' organization has been working toward these past 8 years. Now is your chance to see these issues become reality.

Sincerely,

Bonnie L. Peyroux
